The global economy is on the recovery mode. Since our company is an export company, even an insignificant change in the economic factor affects us. The global economy grew by 2.1% as against Indian economic growth of 4.7%. The rate of inflation has increased from 4.2% in the year 2005-06 to 12.3% for the year 2009-10 and decreased to 9.5% for the year 2013-14. The total exports has increased from 105.2 billion dollar in the 2005-06 to 309.8 billion dollar in the year 2011-12 and 318 billion dollar for the year 2013-14.

The companys turnover in spite of certain economic bottleneck both domestic and global, has increased from Rs. 82.77 Crores to Rs.119.85 Crores. This has been possible due to the constant vigil and upgradation of facilities to satisfy the export market condition. The increased production of yarn has also benefited the company's increase in sales. A major hurdle is the power sector, which is closely monitored, so that necessary steps will be taken to overcome the same. The strength of Rupee is another factor which will have certain impacts on your company. The company expects a very good future in view of the stability of the economy.

The new government at the centre with pragmatic approach will pave way for stable economic growth. Though many fine prints are to be looked into and solved, a momentum has been created.
